

Take Your Scouting for Food Drive Online

Holding a food drive in support of Scouting for Food gives you the opportunity to collect nonperishable food for our neighbors in need. Pairing your food drive efforts with a virtual food drive provides a platform for you to make an additional impact.

Using Crowdrise, an online fundraising site, your friends, family, coworkers and others make monetary donations to help your group or organization reach your fundraising goal.

Every \$1 raised provides enough food for five meals and setting up your online campaign is quick and easy.

Once your campaign is set up your fundraiser will have its own URL. This makes encouraging participation by email, social media, flyers, eNewsletters and your website simple.
